Branching stochastic processes as models of Covid-19 epidemic development

## **Branching stochastic processes as models of Covid-19 epidemic development : Var144 - week 53**

### **Abstract**

The results presented here are obtained using the method proposed in the paper <https://arxiv.org/abs/2004.14838> for the country Var144. The data comes from European Centre for Disease Prevention and Control available at <https://opendata.ecdc.europa.eu/covid19/casedistribution/csv>.
